THE OPPORTUNITY

Turning fragmented activity into one growth system

Quick Quartz needed a coordinated acquisition engine that could generate immediate demand while building durable visibility for competitive countertop searches.

The challenge

- Compete for high-intent searches in a crowded Ontario home improvement market.
- Improve lead volume without relying on a single paid channel.
- Strengthen local search visibility and turn website traffic into calls and enquiries.
- Create clearer reporting across advertising, SEO and website performance.

The integrated approach

- Google Search campaigns focused on commercial countertop intent.
- Meta lead generation campaigns built around fast installation and quote-led creative.
- On-page SEO, educational content and off-page authority building.
- Website and analytics optimisation to connect traffic with measurable actions.

ONE CONNECTED SYSTEM

Demand capture

Lead generation

Organic authority

Conversion insight

GOOGLE ADS AND META

Paid campaigns converted high-intent demand

Search captured homeowners actively looking for quartz countertops, while Meta expanded reach and generated enquiries through native lead forms.

102

On-Facebook leads

45

Google Business calls

Google Ads visibility

23.87%

Impression share

85.58%

Top-of-page rate

Quick Quartz held the highest impression share in the competitor set shown in the report, with strong visibility above organic results.

High-intent keyword performance

Keyword	Clicks	CTR
quartz countertops	286	9.34%
quartz countertops cost	112	13.78%
quartz countertops near me	98	9.12%

The combined paid-media system balanced search intent with scalable social lead generation.

ORGANIC VISIBILITY

Search authority grew alongside paid acquisition

SEO expanded Quick Quartz's discoverability for local and informational searches, helping the brand build demand beyond paid campaigns.

Representative tracked rankings

Search term	Position
quick quartz countertops	1
quick quartz	1
quartz countertops pickering	1
quartz countertops near me	6
typical kitchen counter height	7
standard counter height	8
countertop near me	10

Authority-building activity

- Five on-site educational articles supporting product and customer questions.
- Approximately ten off-site placements and backlinks supporting domain authority.
- Local and commercial keyword coverage aligned with countertop buying intent.

ANALYTICS

A measurable increase in qualified website activity

The website became the measurement layer connecting paid media, local discovery and organic search with engaged visits and lead actions.

3,048

Total website sessions

1,535

Engaged sessions

50.36%

Overall engagement rate

Traffic channel breakdown

Channel	Sessions	Engaged	Engagement rate
Paid Search	1,058	440	41.59%
Organic Search	786	534	67.94%
Direct	456	264	57.89%
Display	350	65	18.57%
Organic Social	176	105	59.66%
Cross-network	133	82	61.65%

Organic Search produced the strongest engagement rate among the major acquisition channels, reinforcing the value of running SEO and paid acquisition together.

THE RESULT

200+ leads - and a stronger foundation for growth

The campaign delivered immediate demand while improving Quick Quartz's long-term visibility, measurement and ability to compete across search and social channels.

200+

leads generated in three months

A coordinated strategy joined fast-response paid media with search authority, local visibility and website measurement - giving Quick Quartz both near-term enquiries and a more durable acquisition engine.

WHY IT WORKED

Intent

Search campaigns focused investment on homeowners already researching quartz countertops.

Reach

Meta creative extended demand generation and captured enquiries through low-friction lead forms.

Authority

SEO content and off-page work improved visibility for local and informational searches.

Measurement

Analytics connected channels to sessions, engagement, calls and lead outcomes.

Performance data compiled from the client report supplied by Raptivio. Lead totals are combined campaign results; platform metrics may use their respective attribution models.
